ArrowElite™ Rollerless Case Conveyors

DTM
Packaging, LLC

Packaging/Bottling Machinery
and Engineering Services

Heavy Duty Modular Design

- Simplified installation and maintenance

Maximizes our investment by allowing you to re-configure conveyors to adapt to new production requirements

Fully powered drive and idle transfer points

Self clearing transfer areas minimize product contact and build-up of line pressure

Shaft mounted drives

Ease of maintenance and quieter operation

Zero pressure zoned accumulation areas available

- Minimizes pressure during line backups
- Simple, Unique, Patent-pending reliable accumulation actuator for maximum uptime and ease of maintenance
- Optional Center Lift bars for the accumulation zones can handle large and small packages on the same system

Capable of handling both rigid and flexible packages

Many Options Available

- Package merge and divert sections
- Custom package guides
- Incline and Decline models available
